THE CHENNAI PEDIATRIC
ELECTROPHYSIOLOGY SYMPOSIUM

5th & 6th January 2008

Hotel Green Park
Chennai, INDIA

&

Dr K M Cherian Heart Foundation

Co-sponsored by

Indian **Heart** Rhythm Society

Cardiological
Society of India

INTRODUCTION

Arrhythmias in children have haunted the specialist in pediatric intensive care facilities, the pediatric congenital heart surgeon and the electrophysiologist. Groups involved in the surgery and care of congenital heart defects have to contend with a population of follow-up patients with arrhythmias that at times can be as exasperating to manage as to diagnose.

Meetings that focus on a particular issue have been appreciated among the surgical and cardiology community. **The International Center for Cardiovascular and Thoracic diseases, Frontier Lifeline & KM Cherian Heart Foundation, Chennai** will be conducting a two day symposium, preceded by a workshop to focus on the issues relevant to diagnosis and management of arrhythmias in children from **4th January to 6th January 2008**.
